

The SDG Accord

Post-16 education contributing to the Global Goals

www.sdgaccord.org

The SDG Accord

Recognising that we are at different stages in our journey towards a sustainable future, with differing strategic priorities dependant on our strategic ambitions, areas of expertise and organisational culture

This Accord calls upon we, the world's universities and colleges

to embed the Sustainable Development Goals into our education, research, leadership, operations, administration and engagement activities.

We Accord Signatories recognise:

- The indivisible and interconnected nature of the universal set of Goals – People, Prosperity, Planet, Partnership, Peace
- That, as educators, we have a responsibility to play a central and transformational role in attaining the Sustainable Development Goals by 2030
-

**Current Signatories
Institution**
